

*The vis-à-vis X is the soundproof acoustic pod with sound insulation technology designed for quick access of vocal privacy in an open-plan office. The vis-à-vis X, with its knock-down design, enable easy placement within any open-plan space environment, thus provides flexibility and fast churning for changes at workplace. With the state-of-art noise reduction & insulation technology, vis-à-vis X is ideal for focus work such as private meeting, interview and virtual meeting.*

*With built-in motion sensor that controls lighting and ventilation systems, vis-à-vis X also features a greener and energy efficient solution with its contemporary architecture.*

*The vis-à-vis X is designed for up to four users.*
